DATASHEET
ERGOSEAT NG-S

The Ergoseat NG-S enables the operator to easily work in an ergonomic position, even when looking downward is required to perform. The Ergoseat NG-S is based on the hanging version. In existing cabins, optimal ergonomics can be achieved by using our Ergoseat NG-S. With the Ergoseat NG-S, operators can enjoy enhanced seating comfort and ergonomic benefits without the need for extensive modifications to the current cabin structure.

There are numerous options available for adjusting the seats and consoles. This feature allows operators to conveniently utilize the consoles for lower arm support, thereby reducing or eliminating neck and back complaints.

1. Primary line of sight
2. Minimum neck rotation required
